1000V Insulated Gloves

Overview

Deco 1000V Insulated Gloves provide effective individual protection for anyone required to work on live voltages or perform operations on or in proximity to electric installations. Each 1000V Insulated glove is tested to IEC60903 International Standards to ensure maximum efficiency and safety. While other companies manufacture their dual colour gloves with a 50 / 50 layer, we produce an extremely thin outer layer. The slightest nick or cut in our gloves will expose the inside layer of latex, ensuring the wearer's safety.

Features

- ◇ 1000V working voltage
- ◇ Available in Size 9, 10 & 11
- ◇ 360mm Length
- ◇ 1mm Thickness
- ◇ Formulated from natural rubber to ensure high dielectric properties
- ◇ Gloves are marked with Manufacturer, Date of Manufacture, Working Potential, Size, Batch Number & Standard Mark
- ◇ Dual colour ratio
- ◇ Compliant with the AS/NZS IEC60903:2020 Standard
- ◇ Perfectly designed for all hand types.
- ◇ Soft, flexible and strong, they allow great dexterity
- ◇ Rolled cuff makes them comfortable to wear, and easy to get on and off
