

WCM - 5M

MICROWAVE LEAKAGE DETECTOR

The Wavecom **WCM - 5M Digital Microwave Leakage Detector** is a high sensitive product to detect microwave leakage accurately.

Microwave radiation is odorless and invisible, its leakage can be caused by slamming the oven door, leaving food particles in hinges or seals and moving the oven around etc.

The WCM - 5M Digital Microwave Leakage has newly developed technology that has advanced sensors for detecting radiation leakage accurately, even with low levels of radiation.

Features

- Range 0—10.0mW/cm²
- LCD digital readout
- Excellent reliability and high precision
- Indication alarm levels >- 5.0 mw/cm²
- Audible beep and LED indication at alarm level
- Low leakage volume display
- Ergonomic design
- 9 Volt battery operation

SPECIFICATIONS

The Wavecom WCM - 5M Digital Microwave Leakage Detector is a professional instrument in the detection of radiation leakage for domestic and commercial appliances.

Microwave appliances used in the commercial workplace environment must be tested annually under the AS/NZ 3760 Safety Standard.

It is recognised in industry that extensive use of domestic ovens and associated appliances in demanding commercial environments, harmful microwave radiation leakage can be caused from door loosening, 'wear and tear' and built up dirt material around the seals.

The AS/NZ 3350.2.25:1997 specifies a minimum leakage test level of 5 milliwatts per square centimeter.

Technical Specifications

Power Source	9 volt battery
Operating Frequency	2.45GHz
Operating Range	0- 9.99mv/ cm ²
Alarm Level	≥ 5.0mw/ cm ²
Accuracy	+/- 1dB
Indication of Operation	Flashing LED

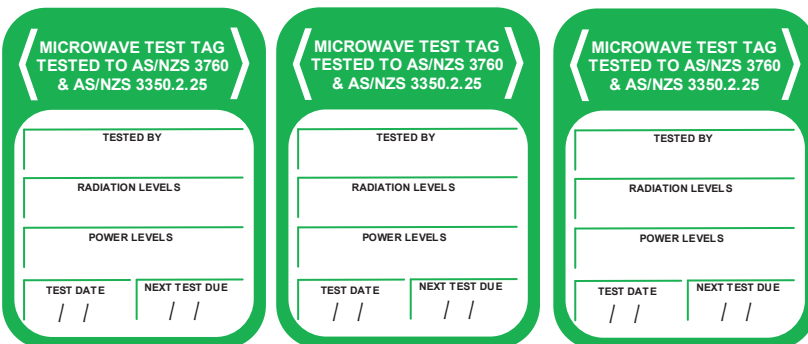

Order Information

Microwave Leakage Detector	Part No: WCM - 5M
Microwave Test Tags	Part No: WCM- RCD-TAG

Microwave Test Tags

Highly Durable " Microwave Test Tags are available to tag tested microwave appliances to provide quick and easy evidence of safety testing of the benefit of end users.
