

## Multi-purpose Cable Tester

- ◆ 165CB is an ideal tool which can test the correct pin configuration for different kinds of cables.
- ◆ For testing : RJ45/RJ11, Coax, Multi-wire cable, USB, BNC cable.
- ◆ Auto scan and manual—check function
- ◆ Audible alarm warning for wire status.
- ◆ 2 LED module indicators on the master unit which can do both of transmitter and receiver functions for RJ45/RJ11 cable testing. Users don't need to use the receiving unit.

## 165CB

- ◆ 165CB provides a variety for checking cable continuity, open status, short status and miss-wired.
- ◆ LED indication for wire status.
- ◆ Power source: 9V battery.

## SPECIFICATIONS

Master Unit & Tone Generator		Amplifier Probe & Receiving Unit	
Display	LED Modules Bi-coloured LED's	Frequency Detection	1Hz~12kHz
Waveform	Square wave	Receiver distance	<50cm
Frequency	1kHz±15%	Sensitivity Control	V
Over Voltage Protection	80V DC	Flash Light	V
Single Tone		LED for signal strength	V
Alternating Tone	Fast and Slow	LED module	V
<b>General</b>			
Operating Temperature & Humidity	0°C~40°C,80% Max	Storage Temperature & Humidity	-10°C~50°C,80% Max
Power Source	9V battery	Weight	165CB-A:210g 165CB-TG:280g
Dimensions	165CB-A: 263x55x37.3 (LWH) 165CB-TG:180x82x43.8 (LWH)	Safety Standard	EN 61326-1 EN 55011 EN 61000-4-2 EN 61000-4-3
